
Green7

Greenifying 24/7

Because recycling starts with kids.

The Problem

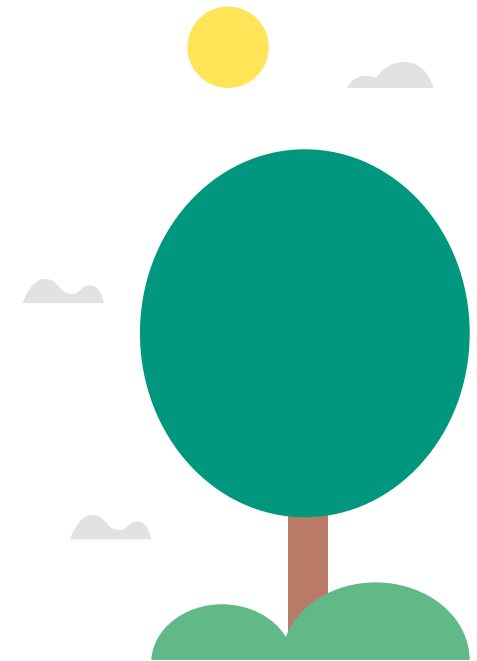

Mr. Abdullah

Recycling education is just not sticking.
What can I do?

“Motivating kids. Giving the right feedback is important.”

Mr. Sufyan Khan

Waste Management Services, Manager Campus and Community

Letter of Intent

Date: 11th January* 2026

This letter confirms my interest in the Smart Interactive Recycling Bin for Children, an innovative solution that teaches waste segregation and environmental awareness through playful, technology-driven learning.

I am interested in exploring potential collaboration, pilot use, or future engagement related to this product. This letter is **legally non-binding** and serves only as an expression of interest.

I look forward to learning more about the project and its progress.

The Problem

Mr. Abdullah

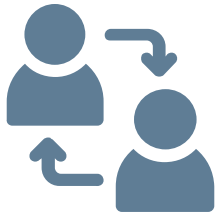

How RoBin Makes Decisions

Easy Access for Daily Operations

Unique Selling Point

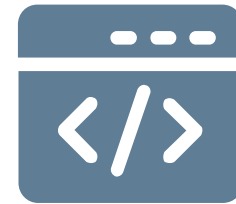

Interaction with Children

Using LLM to answer questions from children

Feedback for Educators

Summary of FAQs for improving curriculum

Up-to-date database with types of trash

Sourced from KAUST recycling center

Free 1-year trial
upon first
purchase

Standard

Complementary

- Fine-tuned LLM to answer Frequently Asked Questions on recycling from students
- Raw data on students' recycling behaviour and performance as a class
- Access to data of individual bins

Premium

USD \$79/year/school

- All Standard features
- Analytics report on Frequently Asked Questions to provide insights for curriculum design
- Data analytics report of students' performance as a class
- Connected to IoT with access to data across bins in different locations

Why Saudi Arabia?

The Vision

- Vision 2030: “**recycle up to 95%** by 2040”
- **Government support** for sustainability-related projects

Bridge the gap between
vision and status quo

The Status Quo

- **Minimal recycling program/education** outside KAUST
- **Low awareness** of recycling in Saudi Arabia
- **Lack of interest** and incentive in recycling
